Another Version of the Story about the Attempt to Arrest Conductor Hilbert on a Passenger-Train that Don't Consist with the Stories Told Already.

THIS all-powerful vegetable preparation expels from the lungs and air passages, the mucus and muco-pus produced by pulmonary inflammation, heals the irritated membranes, and renovates every organ which utilizes the breath of Life. It contains no stupefying poison, and is in all respects a healthful medicine. The rapidity and certainty with which it

is astonishing. Its effects go deeper than
the mere symptoms of pulmonary disease and discharges the cause from the
system. Free and painless expectoration is the mode by which it relieves the
lungs, chest and throat from the burdens
which oppress them; thus arresting Consumption and Bronchitis in the germ before they reach the more dangerous
stages. The emaclated sufferer

at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all Cough
Remedies hitherto introduced is that
they are simply expulsory. Hence they
are useless; for unless the causes of the
acrid secretions which are coughed up
are removed, and the ruptured, inflamed
or maturated surfaces healed and restored to their natural tone, a cure is
impossible. Fritsch's Prussian Cough
Syrup accomplishes these objects. The
mucus and muco-pus which are the consequence of Lung Disease, are thrown off
by it, while at the same time it soothes
and invigorates the weakened tissues.
